

CLUTCH | CONSULTING LLC
GROWING BUSINESSES AND EMPOWERING PEOPLE

Business Coaching and Consulting Referral Program

My name is Nathan Mitchell. I am the founder of the business and leadership development company, Clutch Consulting LLC. I have developed a unique Business Coaching program that shows small business owners how to grow their business and empower their people. In fact, one business in particular has increased its revenues by 50% in only five years using the same systems and strategies I use with my clients.

Benefits of my business coaching services include:

- **Developing a long-range, sustainable business model**
- **Structuring the business to increase revenue and profitability**
- **Attracting, hiring, and developing loyal employees**
- **Increasing employee productivity**
- **Marketing your business to attract loyal customers**
- **And more...**

I have developed one of the best referral programs in the business coaching industry. I am currently paying a referral fee of 10% of contracted income received for services provided to any business that occurs as a direct result of your referral.

Each referral will be supported by a Referral Agreement, which will be provided to you upon the execution of the following.

My referral process is super simple!

1. **You provide the business name, primary contact, and address of the business being referred to Clutch Consulting via the following email address: Nathan@ClutchConsulting.net**
2. **I will then send a copy of one of my business or leadership books with a letter of introduction to your referral with your compliments**
3. **Once I have determined no one else has made the same referral, I will then send you a copy of my Referral Agreement to the email address you provide**

Thank you so much for your consideration. In the business coaching and consulting industry, my business is built primarily through word-of-mouth and referrals in the local community, so **I am pleased to pay referral fees to my friends, fellow chamber members, and referral partners.**

You can visit my website at www.ClutchConsulting.net for additional information & testimonials.
